2 ISLAND 1110, Honey Harbour, Ontario,  
P0E1E0

BY BOAT ONLY - About 10 minutes from marinas in Honey Harbour and you are at your own little collection of islands near Beausoleil Island National Park on Georgian Bay. The off grid cottage is on the main island which is the largest and has a battery bank system which powers the water pump for the kitchen and washroom as well as a few small appliances. A more robust solar system could be added to provide more power to the island. The cottage has been recently painted and is very tastefully decorated and furnished and enjoys incredible privacy and views from inside or out. The fridge, stove and some of the lights are powered by propane and the washroom features a dry flush toilet which uses air tight bags in a cartridge system. You'll love exploring the small island that surround the main island. A few of these islands are yours, while the other ones are Crown Land and cannot be built on. (id:49587)
